On May 1, 2024, I received an email that appeared to be from SecureBanking.com, informing me that my account had been compromised and prompting me to click on a link to verify my account details. The email contained urgent language and threatened account suspension if immediate action was not taken. Upon clicking the link, I was directed to a website that closely resembled SecureBanking.com's login page. #### **Additional Comments:**

I am concerned that other customers may fall victim to similar phishing attempts if they are not adequately warned about this fraudulent activity. I urge SecureBanking.com to enhance its email authentication measures and educate customers about recognizing phishing attempts.
